Dear Ms. Gilberta Lewthwaite:

I came across a copy of your article and interview of July 5, 1992 of the "Sun Magazine", in which you are interviewing Mr. Harold Weisberg of his: "A Legacy for J.F.K. Researchers".

I found the article very interesting and co-incidental with my article of the "Carcano Rifle", which appeared in the York Dispatch on Feb. 28, 1992.

I am sending you a copy of the complete text as I had submitted to the Dispatch and a copy of the edited article as it appeared for space limitation.

The articles are self-explanatory and perhaps you may want to relay copies to Mr. Weisberg as additions to his files.

I share the same view as Mr. Weisberg, of no conspiracy, but give my reasons for being convinced that no other persons were involved in the shooting, - except LEE HARVEY OSWALD !

My theory is strongly based on the nature and design of the unsophisticated Carcano rifle.

I sent copies of the article to the editor of the National Rifle Association publication, "The American Hunter", Mr. Tom Fulgham and the editors responded that they may use it in their section of: "LETTERS TO THE EDITOR".

I am curious to know how many persons purchased the Carcano rifles from surplus supply houses, and what experience they had in terms of marksmanship, and hope that my article becomes part of Mr. Weisberg file.

I am thankful for having the opportunity of reading your article and if you care to respond, the address and phone number is on top of this letter.

Very truly yours,

Anthony P. Alfano
